PROFILE

Results-driven Web Developer proficient in using AI-native tools (Cursor) to accelerate development. Highly motivated to master complex computer science fundamentals, with a strong, self-directed focus on Data Structures and scalable System Design.

EDUCATION

H.S.C 12th , <i>Shri Samarth Science Junior College</i> Passed H.S.C Board with 87.77%	01/01/2020 – 03/2022 Akola, India
S.S.C 10th , <i>Jawahar Navodaya Vidyalaya (JNV), Akola, Maharashtra</i> Passed S.S.C board with 91.0%	03/2019 – 03/2020 Akola, India
Bachelor's Engineering B.E; B.E , <i>Dr. D. Y. Patil Institute of Engineering & Technology, Pimpri Pune; SPPU</i> Will Graduate in Artificial Intelligence and Data Science in 2027	06/2023 – 06/2027 Pimpri, Pune, India

SKILLS & TOOLS

- MySQL, MongoDB
- Javascript, ReactJS, NodeJS, ExpressJS
- Tailwind CSS
- C, C++, Python
- Git, Github
- Postman
- Cursor

LANGUAGES

- English
- Hindi
- Marathi

PROJECTS

Project-X , Website  <i>Foundational Project</i> • Full-stack video streaming platform enabling user registration, secure authentication, and watch history tracking. The core focus is on building a secure RESTful API, implementing user authentication, and mastering relational database design.	07/2025 – 09/2025
CLI-Debugger , <i>Developer Tool, System Utility</i> • Designed and built a command-line debugging utility that analyzes common runtime and syntax errors to provide human-readable explanations and suggested fixes. The project focuses on parsing error logs, rule-based pattern matching, and improving developer productivity through automation. Emphasis was placed on clean CLI design, modular architecture, and handling edge cases in real-world development environments.	12/2025 – 01/2026
