• Advanced X-ray Enhancement for Modern Healthcare is an AI-driven solution designed to significantly improve the quality and clarity of medical X-ray images. In many clinical scenarios, X-rays suffer from issues such as noise, low contrast, and poor visibility of critical details, which can make accurate diagnosis challenging. This project leverages deep learning techniques to automatically enhance radiographic images, making them sharper, clearer, and more informative for medical professionals.

ProjectX - Video Streaming Platform

16 Oct, 2025 - 15 Jan, 2026

Key Skills: MongoDB Javascript NodeJS ReactJS Express Tail Tailwind
